Case Narrative Assault 2

At approximately 2100 hours I was dispatched to an assault at Fairfax Hospital located at 10200 NE 132nd ST within the city limits of Kirkland, Washington. It was reported that a patient had assaulted two separate patients.

I arrived and contacted the reporting party [REDACTED] who called 911 to report the assault for the victims. She stated the assault had occurred about thirty minutes prior to our arrival at or about 2030 hours. She advised me that the parties were separated and that the assault took place in the north building. Hospital staff saw the assault occur on the security cameras and rushed in to separate the parties. The hospital decided to call 911 because the suspect was being violent and was not welcome at the hospital any longer. She said one victim was struck while he was sleeping and the other was struck while he was sitting down. The first victim was just punched in an unknown area and did not have injuries. The second victim had injuries and was struck several times. There did not seem to be a reason for why the suspect assaulted the victims. The victim's injuries were treated by hospital staff.

I then spoke with the suspect identified through hospital records as [REDACTED]. [REDACTED] said the last few days the other patients were talking a lot, frustrating him, and calling him names. After becoming frustrated [REDACTED] snapped "like a pit" and punched one person. [REDACTED] said he remembers punching one person but did not know who he punched. [REDACTED] then said he blacked out and does not remember what else happened.

I asked [REDACTED] if he understood cannot hit people, [REDACTED] replied "yes".

Based on [REDACTED] description of what happened and [REDACTED] verbal statement, I placed [REDACTED] under arrest for assault at approximately 2128 hours. I secured [REDACTED] in handcuffs, checked for proper fit, and double locked them for safety. Miranda was read by Officer Gallup at approximately 2130 hours.

I then spoke with the victim [REDACTED], who provided a recorded statement about the incident. He stated that at the time of the incident he was sitting down drawing. He stated that he was struck by someone once in the face. As a result of the strike [REDACTED] lost his tooth. I uploaded the recorded statement into the case file. I noted that while I spoke with [REDACTED] he had a cut on his right eye lid, a missing front tooth, a black right eye, and lump on his nose. I took photos of [REDACTED]'s injuries and uploaded the photos into the case file. It should be noted that [REDACTED] did not want to assist with the prosecution.

CASE# 2018-00039107

CASE REPORT

NARRATIVE (continuation)

█████ said the other victim wanted to remain anonymous and did not want to provide a statement. She also told me the facility did not have anyone who could access the security footage at that time. Before leaving I requested a copy of the security footage and left my business card with the case number.

█████ was transported and booked into King County Jail without incident by Officer Gallup. See Officer Gallup's supplemental narrative.

Because █████ intentionally punched █████ with a closed fist multiple times, causing substantial bodily injury in the form of a lost tooth and an apparent broken nose, there was probable cause to charge █████ with violation of RCW 9A.36.021, Assault in the 2nd degree.

Disposition: Charges have been forwarded to the prosecutor for review.
